

A woman with dark hair tied back, wearing a black short-sleeved uniform shirt, is cleaning a green chalkboard. She is holding a white microfiber cloth in her right hand and wiping the board. The chalkboard has various chalk drawings, including a tree, a mountain, and some text. In the top left corner, there is a yellow and red Rubbermaid Commercial Products logo.

PAÑOS DE MICROFIBRA DE USO GENERAL

para un cuidado profesional
de superficies

A close-up photograph of a person's hand using a white microfiber cloth to clean a dark, reflective surface. The background is blurred, showing a person's face and a dark jacket. Two yellow lines with circular endpoints point from the text blocks to the cloth and the surface being cleaned.

La acción de fregado ayuda a remover microorganismos

Las fibras de la microfibra capturan hasta el 99% de bacterias y alérgenos*

*Alérgenos y polvo probados: Caspa de mascotas, materia de plagas y materia de ácaros del polvo (Dander, Pest Matter, Dust Mite Matter).

LIMPIEZA EFICAZ

para una desinfección eficiente
